The bill of quantities for Provision of Cleaning services general areas should be read in conjunction with the instructions to bidders, special conditions of contracts, the schedule of works and drawings.

This bill of quantities is the basis for payment of the cleaning services that are to be provided on a lump sum per square feet covered under the contract. The rates given by the bidder shall, except insofar as otherwise provided under the contract, include all equipment, labour, management/supervision, materials/consumables, insurance, profit, taxes and duties, together with all general risks, liabilities and obligations set out or implied in the contract.

Payment shall be made in accordance with the actual performance of the contractor and compliance with the Service Level to be entered between the contractor and the Authority. Failure to meet the Service Levels will result in payment reductions in accordance with the special conditions of contract.

A unit rate or price shall be entered by the bidder against each item in the bill of quantities. The cost of the items against which the bidder has failed to enter a unit rate or price shall be deemed to be covered by other unit rates and prices entered in the bill of quantity.

General directions descriptions of works and materials are not repeated or summarized in the bill of quantities. Reference to the relevant sections of the contract documentation shall be made before entering the rates or prices against each item in the bill of quantities. Bidders are requested to give a breakdown of the lump sum per square feet to show the cost expense for materials, administrative salaries, profit and taxes which will enable the client to understand how the total cost for each lot was arrived at.
